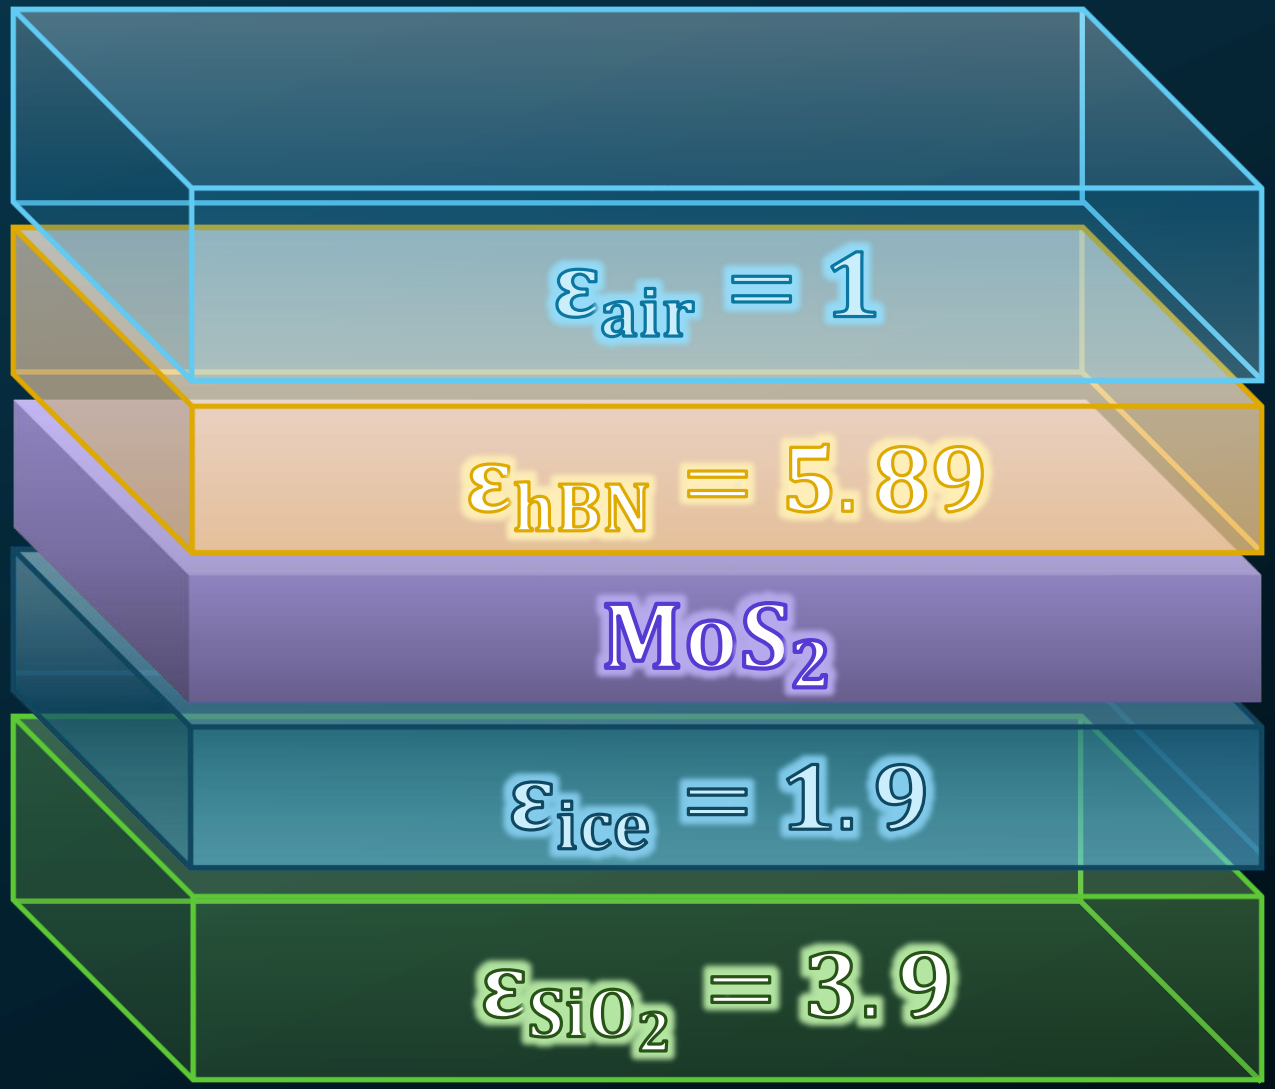
WannierBSE

Unleash the Full Power of WannierBSE

Example 2:

$air/hBN/MoS_2/ice/SiO_2$

Precision Screening for Complex Systems.
Combine your **Wannier90 results** with our built-in **Poisson solver** for environmental screening



WannierBSE

Unleash the Full Power of WannierBSE

Example 2:

$air/hBN/MoS_2/ice/SiO_2$

1 **Bring your Wannier90 results into the User_input folder.**

wannier90_hr.dat

2 **Edit the control files in the Parameters folder to define your system.**

- control.txt
- structure.txt
- kmesh_control.txt
- WTB_control.txt
- WF_centers.txt
- dielectric_control.txt

3 **Run the WBSE.m script to start the calculation.**
