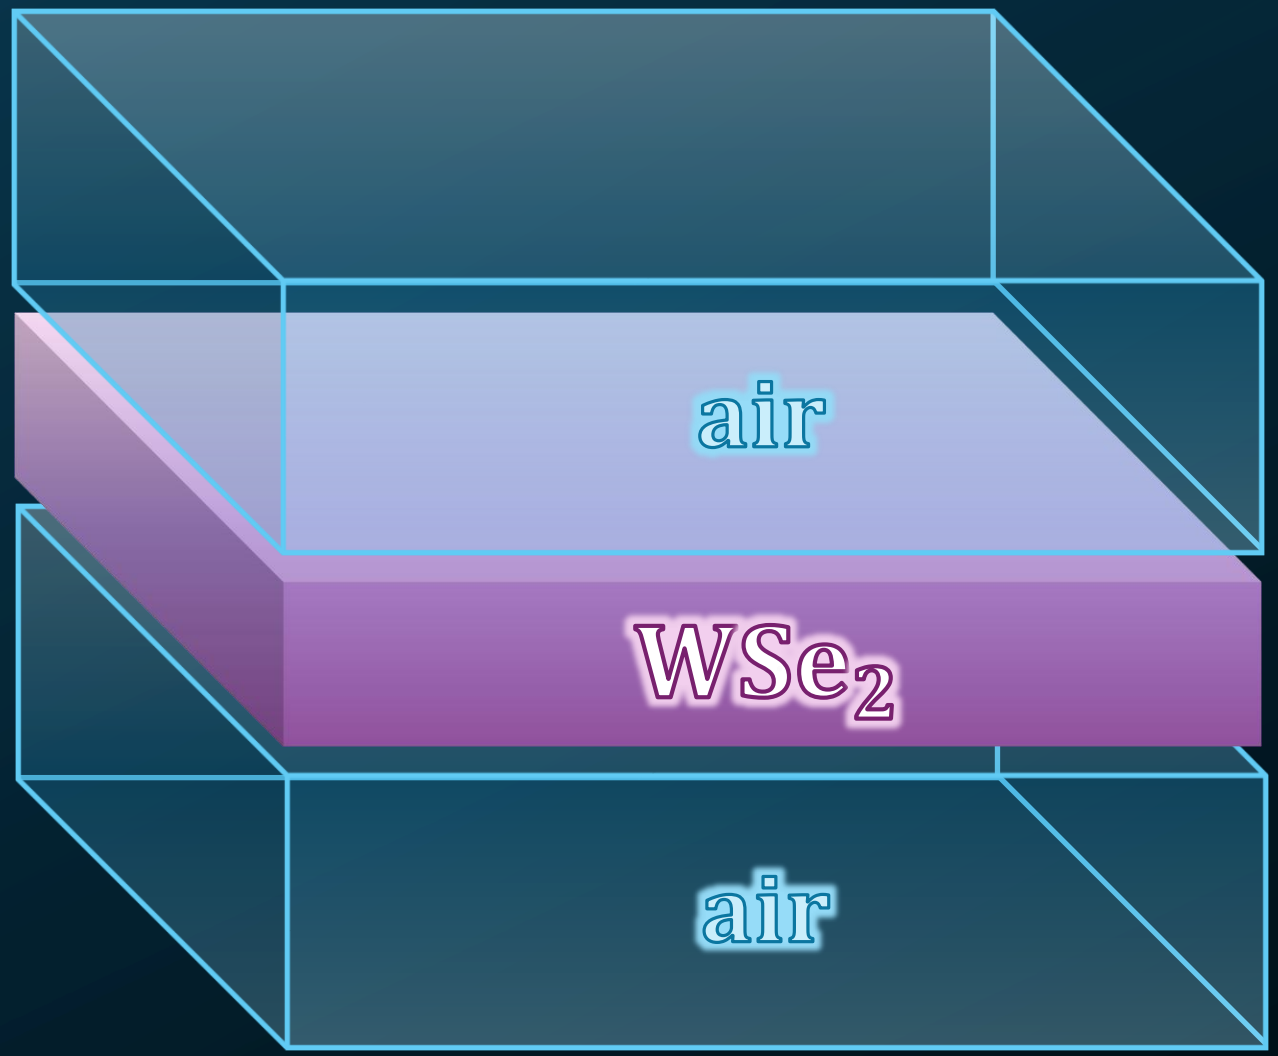
WannierBSE

Bring Your Dielectric Function

Example 4:

air/WSe_2/air

Provide your own **dielectric screening function** to study excitons with your specialized models.



WannierBSE

Bring Your Dielectric Function

Example 4:

air/WSe_2/air

1 **Place your Wannier90 results and your dielectric function into the User_input folder**

wannier90_hr.dat → epsilon.txt

2 **Edit the control files in the Parameters folder to define your system.**

- control.txt
- structure.txt
- kmesh_control.txt
- WTB_control.txt
- WF_centers.txt

3 **Run the WBSE.m script to start the calculation.**
